TO THE HONORABLE INDIVIDUALS AND FREE PEOPLES OF THE WORLD

April 25 – Circassian Flag Day
One Identity – One Spirit – One Will
Symbol of Righteousness and Collective Resistance

The 12 stars on the Circassian Flag represent the regions of the tribes, the three arrows symbolize peaceful unity, the green background stands for Circassia's paradise-like nature and the peaceful climate of Islam, and the golden color signifies the richness and freedom of the physical and human geography.

The Circassian Flag is a sacred symbol of the epic resistance shown by the Circassian people against the invasion attempts of colonial powers that began in the 16th century and intensified in the 19th century.

162 years have passed since Circassia, left utterly alone, was occupied by the colonial Tsarist regime, and our surviving compatriots were expelled from their heavenly homeland. Russia has still not even managed to apologize for the genocide, ethnic cleansing, and exiles inflicted upon the Circassian nation, which now lives scattered across fifty countries around the world!

The CNA -Circassian National Assembly- was established on October 5, 2025, in Istanbul by 65 delegates representing 26 founding civil society organizations from 7 different countries during the Founding General Assembly. The CNA will carry out its activities with the support of international law and human rights, in order to protect the dignity and rights of the Ancestral Homeland Circassia and the Circassian people, and to regain our honorable place among the world's peoples through our identity and culture.

Long live the Circassian Flag! Long live Circassia! Long live the Circassian Nation!!
